

'Twas Murder

SAYS HOFFMAN

(Continued from page one)

early today and resulted in Coroner Hoffman declaring that Mrs. King was murdered.

"It is my opinion that the wound on Mrs. King's head was not self-inflicted, and that a crime has been committed," is the verdict of Coroner Hoffman.

Hoffman also contradicted the verdict of a coroners jury at Concord, North Carolina, which found that she had died from a bullet wound inflicted accidentally by herself near that city on August 29.

Cantonments

Receiving Draft

(By George Martin.)

(United Press Staff Correspondent.)

Washington, Sept. 7.—With the first 34,350 draft rookies in or nearing the country's sixteen cantonment training camps today, the task of making them over into fighting men began.

The first thing every recruit did on reaching camp today was to take a bath. From the bathhouses, one by one the boys were taken before medical examiners of the regular army.

As a result of this final and most rigid physical test, many of the boys who closed the door on civilian life and left lonely mothers, wives or sweethearts inside less than 36 hours ago will be back home tomorrow, maybe tonight.

Those who pass the physical

test will be vaccinated for typhoid, para-typhoid and smallpox. Recommendations will then be made to company commanders for special exercises for each individual to correct any slight physical defects.

The first two weeks of training will be occupied almost entirely with these special exercises, light setting up drills and physical schooling of the young soldiers-to-be.

During the second two weeks regular training will begin. The rigorous work will be increased gradually. The division surgeon and his assistants will keep a watchful on the general physical condition of all the men.

Thorough instruction in personal hygiene, sanitation and first aid will be given them during the first two weeks.

These boys in short, will be put into the best physical condition they ever were in in their lives. Should anything intervene to keep them from going ahead toward France, after their three months of training, they will return to civil life sound as nuts, physically hard and fit for any work.

Washington, Sept. 6.—Congressional action on the recent spread of pink boll worm from Mexico into the American cotton belt has been recommended by the house appropriations committee.

house and lot in East Scotland Neck, known as the Bunch Store. Best stand in town for the right man. Possession can be given at once. Apply to J. S. Coleman and Son, Scotland Neck, N. C. 9-30-11

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

Better Service to You

We don't want you to think of the Planters & Commercial Bank just as a place to deposit your money, although of course we are glad to have you keep as large a balance with us as is possible.

It is our desire to render our patrons every service and accommodation that can reasonably be expected of us.

The Burroughs Bookkeeping Machine, which we have just added to our equipment, makes it possible for us to give you better service than ever before in the handling of your account.

By the machine method, your account is kept in balance all the time. If, as sometimes happens, you want a statement of your balance in a hurry, we can give it to you, including today's checks and deposits, in less than five minutes.

The machine affords absolute protection against errors in figure handling. It can't make a mistake. You can always be sure that your machine-figured balance is correct.

The increased speed, accuracy and protection of this mechanical bookkeeping system, added to our thorough knowledge of good, consistent banking and business methods, make it possible for us to offer you an improved service that is equal to that furnished by the country's most progressive banks.
